About

Senior Product Designer with 8+ years in B2C & B2B SaaS, working on end-to-end design across both web and mobile. From the very early discovery and ideation stages through to handoff and shipped with measured outcomes. Increasingly using AI tools (Lovable, UX Pilot, Claude) to accelerate both concept generation, prototyping and research.

Work Experience

Senior Product Designer at Collaborative Perks ↗

MADRID, SPAIN — 05/2018 → CURRENT

B2B SaaS platform for employee benefits, serving 100+ companies worldwide.

- Designed core features for an **industrial marketplace** that enabled our client to **avoid 3.7M €** in new equipment purchases through factory-to-factory exchange.
- **Led design and UX** for a new module for our clients' platform which drove **35% increase** in user engagement within the first six months of implementation and launch
- Co-designed and maintained core platform's **design system**, reducing design to development inconsistencies in both web and native mobile as well as implementation time during sprint cycles.
- Redesigned the transaction flow for a clients' industrial marketplace exchange platform, **reducing drop-off by 18%** and cutting **completion time from 4.2 to 2.5 minutes** based on analytics.
- Designed and launched a new messaging system ahead of a major platform event, **increasing monthly messages from ~3k to ~7k (+130%)** in the first quarter.
- Contributed to a **sustainability-driven platform** that reemployed 41 tonnes of materials and **avoided 1,400T of CO2 emissions** over six years (ongoing).
