Work Experience

Senior Product Designer at Collaborative Perks ↗

Madrid, Spain — 05/2018 - Current

B2B SaaS platform for employee benefits, serving 100+ companies worldwide.

- Designed core features for an industrial marketplace that enabled our client to avoid **€3.7M** in new equipment purchases through factory-to-factory exchange.
- Led design and UX for a new module for our client’s user platform which drove a **35%** increase in user engagement within the first six months of implementation and launch.
- Co-designed and maintained core platform’s **design system**, reducing design to development inconsistencies in both web and native mobile as well as implementation time during sprint cycles.
- Redesigned the transaction flow for a client’s industrial marketplace exchange platform, **reducing drop-off by 18%** and cutting completion time from **4.2 to 2.5 minutes based on analytics**.
- Designed and launched a new messaging system ahead of a major platform event, increasing monthly messages from **~3k to ~7k (+130%) in the first quarter**.
- Contributed to a sustainability-driven platform that reemployed **41 tonnes** of materials and avoided **1,400T** of CO2 emissions over six years (ongoing).
